15 0 1

## Chapter 1 by ZigZagoon99

Twas the year 2169, and Prof. Bob Mannfield was in his workshop, working on his new project the space car. Bob was an old man. He had droopy ears, a stout posture and cracked dry lips which needed lip balm every 20 to 29 minutes. He had no wife nor kids, but he was happy. 5 hours later, he'd finished the car, and gone to have a kip. Knowing that he'd test it in the morning. But what he didn't know, was that when he tested it, he would go on adventure to the outskirts of space, meet his soon to be wife, and also make friends with an alien named John. So read on dear reader, because the adventure is about to start...
